DITEC AUTOMATIC DOORS FOR YOUR OFFICES

SWING DOOR
DAB AND **SPRINT**

SLIDING DOOR
CIVIK AND **DAS**

FLUSH DOOR
OLLY C

MORE HEALTH

With a simple opening system, automatic or touchless, you can enter or exit, without touching handles, push buttons, switches. **And you're no longer exposed to risk of infections!**

MORE ACCESSIBILITY

Make it easy to access your offices and meeting rooms for people with reduced mobility or simply with full hands. **In complete safety and in full compliance with all regulations!**

MORE COMFORT

Eliminate the problem of doors left open in offices, restrooms, and common areas. With Ditec solutions, the door opens and, above all, closes automatically! For the happiness of your employees and your peace of mind!

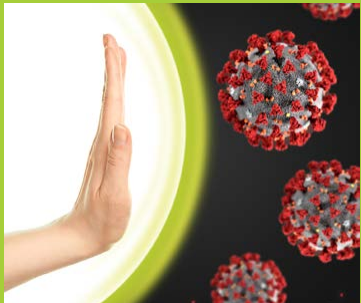

MORE SAVING

Reduce the burden of your bill by cutting air conditioning or heating consumption; Ditec automatic doors minimize dispersions during people passage.

MORE SIMPLE

With Ditec you can **turn any door in your offices into an automatic door, in a simple and inexpensive way!** Yes, even if you already have a manual door!

EXAMPLES OF SOLUTIONS FOR YOUR OFFICES

ENTRANCE DOOR TO BUILDING

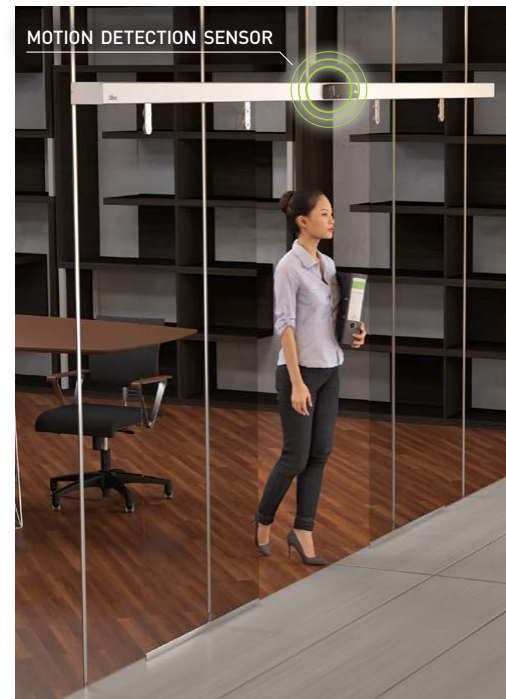

Sliding automatic door (mod. DAS107 or DAS200) with activation and safety sensors (mod. PASAA2) to enter and exit or badge reader or iris scan system.

ENTRANCE DOOR TO OFFICES

Swing automatic door (mod. DAB105 or SPRINT) with activation and safety sensors (mod. PASS24) or touchless push button (mod. PID24) or elbow push button (mod. PFP1).

MEETING ROOM DOOR

Sliding automatic door (mod. CIVIK) with activation and safety sensors (mod. PASAA2) or activation photocells (mod. OCEL1).

BATHROOM DOOR

Automatic operator for flush doors (mod. OLLY-C) with touchless push button to enter and exit (mod. PID24) or elbow push button (mod. PFP1).
